

THE STORY OF USHER SYNDROME

Usher syndrome is a
RARE GENETIC CONDITION
that causes hearing loss, visual
impairment, and problems
with balance.

We're each born with it, but it
AFFECTS US ALL DIFFERENTLY.
Currently there's no cure for Usher syndrome.
But CUREUsher are trying to change that.

NOW, WE NEED YOUR HELP.

FIND OUT MORE
VISIT THE STORY OF US

Some of US can't see well.
Some of US can't hear well.
Some of US can't balance well.
We're all different but we're all determined for change.

If we don't get a diagnosis early enough, we don't get the chance for correct treatment options. Day-to-day life becomes more difficult, Impacting US. Impacting our families.

That's why we need early genetic testing, For you to refer US as soon as possible. Because this is the moment you can help US live, in a world that's not designed for US.

**SEE US, HEAR US, AND PLEASE...
REFER US.**

HELP US

Ask yourself, how much do you know about Usher syndrome? How much does the healthcare system know about US? We need help improving that, and education is the key to achieving it. If more of you can see US - more of you can help US.

The earlier we find out, the earlier we can start to adapt our lives. Giving us the best chance for a future - a future of our choosing. Because in a life filled with uncertainty, getting help should be the easy part.

You have the power to make that a reality. To help better US, refer US and support US.

YOU CAN CHANGE THE STORY OF US.
