USHER SYNDROME IT'S EASY TO IGNORE US

Thanks for reading this poster. It means a lot to US.

Because, like a lot of people, you might not have heard of Usher syndrome before – a rare genetic condition that affects our sight, hearing, and balance.

Which is why we often feel invisible... ignored. But the more you understand US, the more you can make a difference. By helping to change the story of US.

Usher syndrome might be what connects us, but it's not what defines us.
